

I'm pretty sure I
went to school to
be a scientist

So why am I doing all this teaching?!

Objectives

1. Learn basic strategies for teaching a group
2. Discuss how to apply those strategies to training/competency programs
3. Assess how to measure if your teaching is effective

Who is who?

Who is who?

College Professor

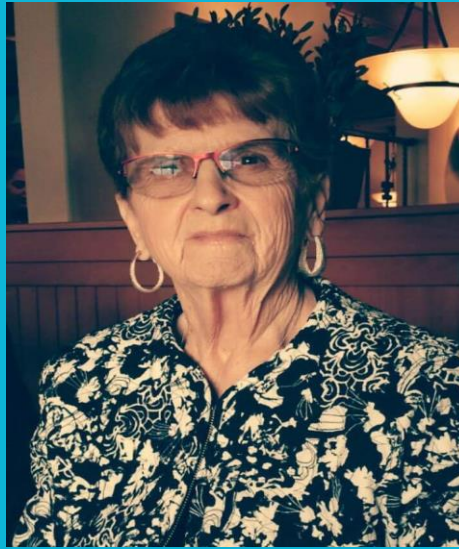

Point of Care coordinator

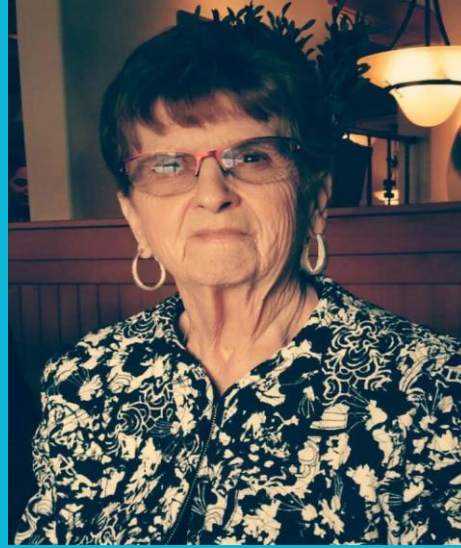

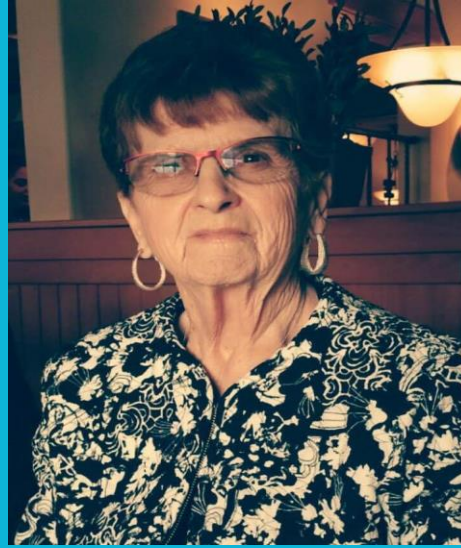

**I'M A POINT
OF CARE COORDINATOR**

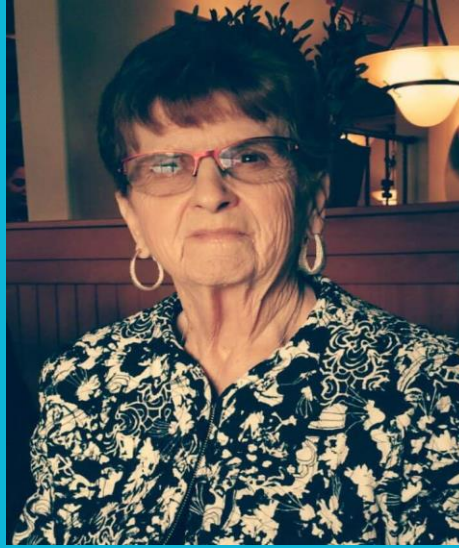

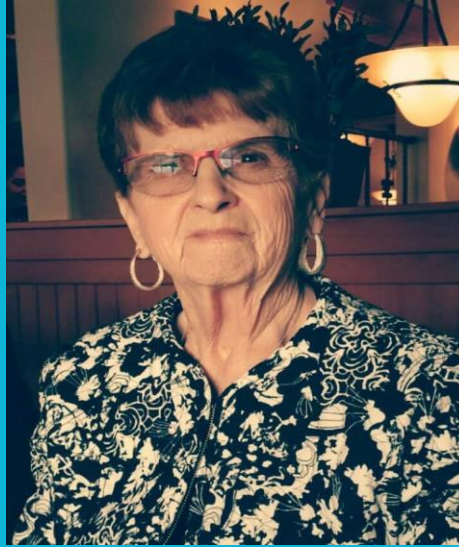

NOT A TEACHER

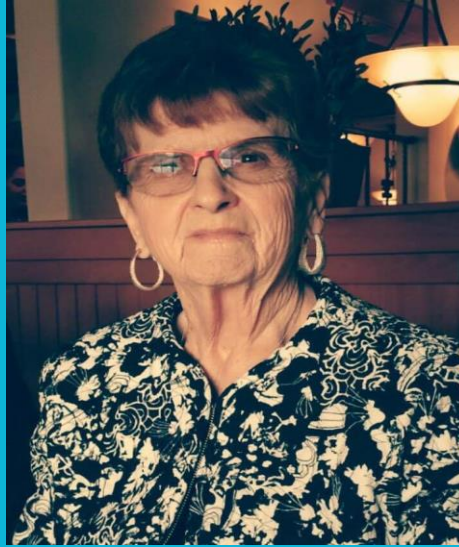

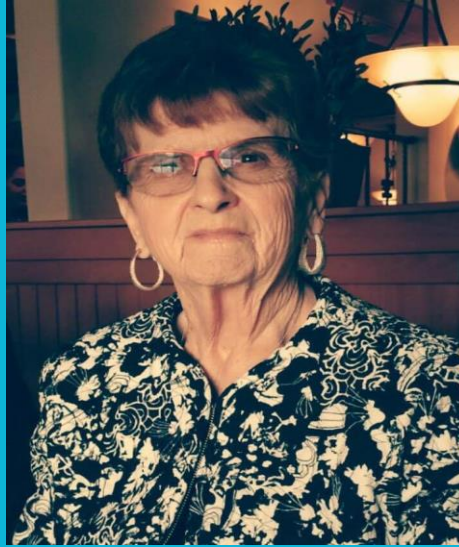

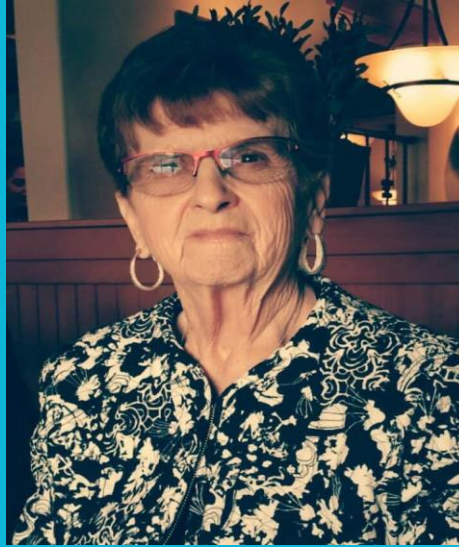

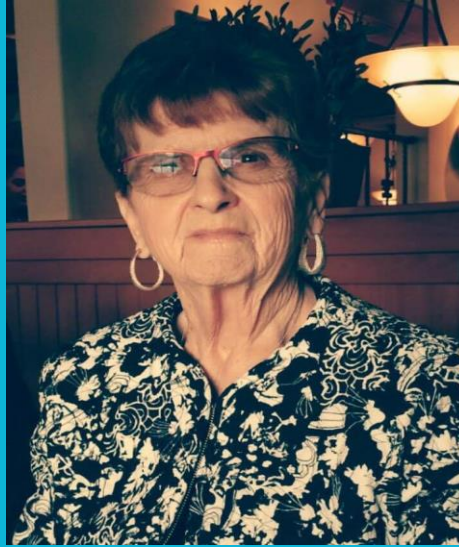

Rookie Mistakes:

I handed out the glucometer and supplies at the beginning of class.

Don't give them the device until you are done demonstrating.

People would be checking their phones.

How did I fix it?

Set the expectation.
Objectives

Still Challenges

There's always that one guy at work.

Walk around them, stand by them, ask them a question.

Cold Call with CFU:
Check for Understanding

It's Time to Engage

Keep it simple - Economy of Language

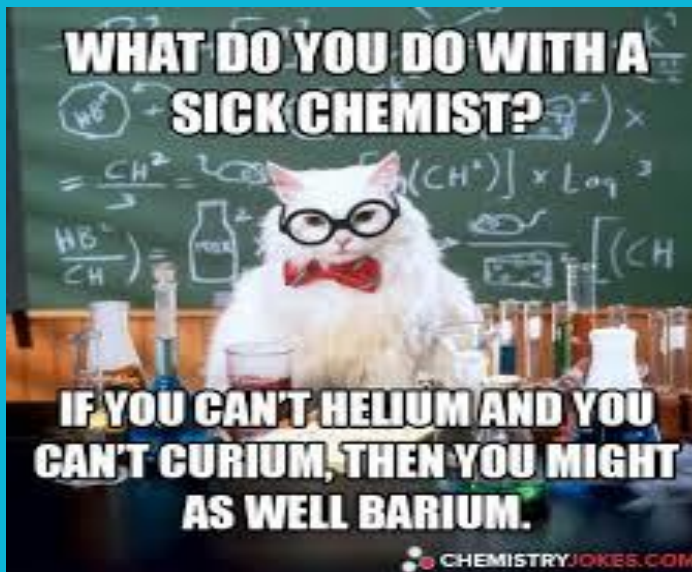

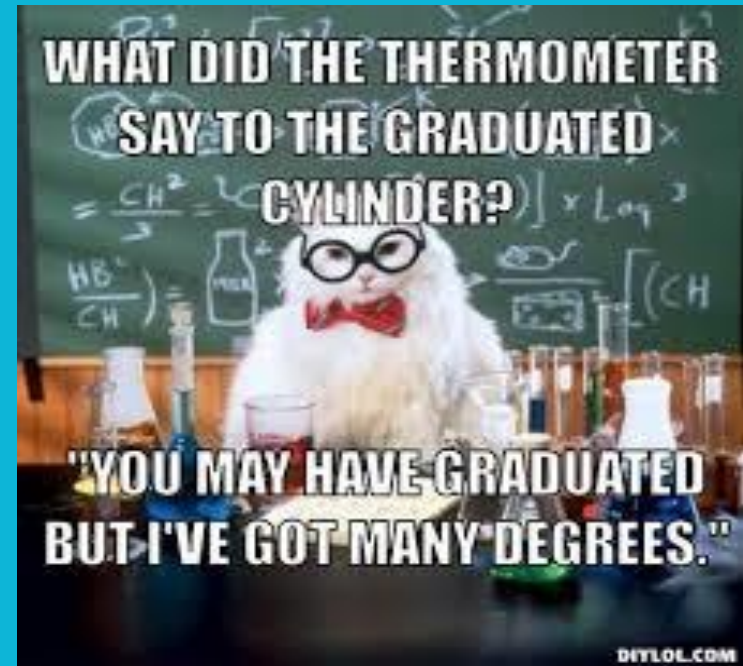

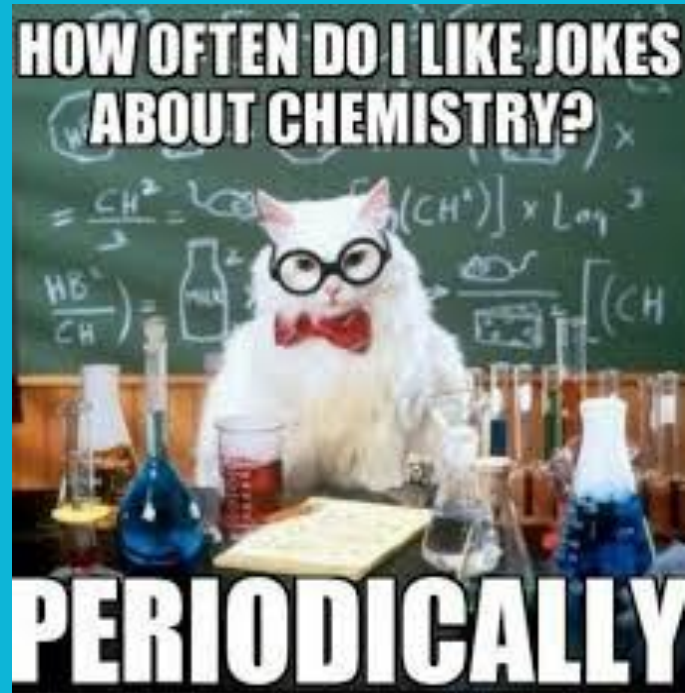

Keep it flowing - Pacing

Make it challenging - Think, Pair, Share

Make it entertaining

Dad Jokes

Hands on Portion

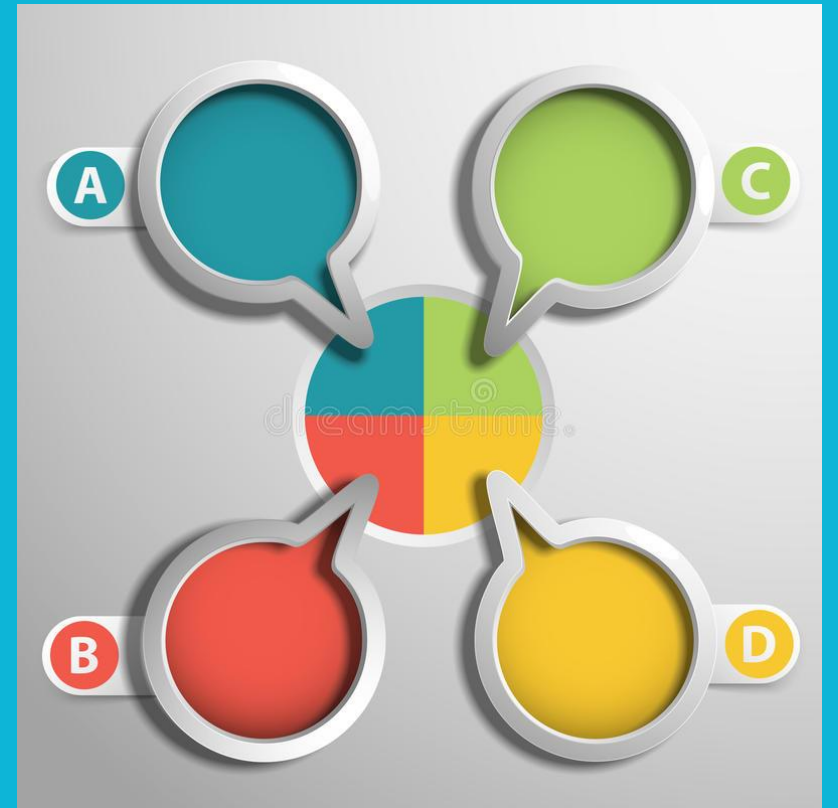

- Hands on learning
- Directing/Observing

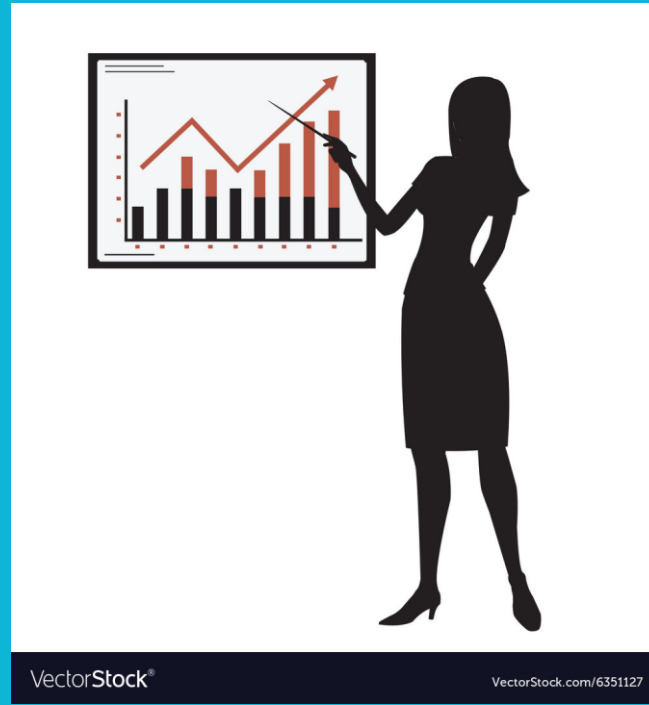

7 times to remember theory-<http://www.keytostudy.com/many-repetitions-long-term-retention/>

For new language or other unstructured data you may need seven repetitions or more with each repetition contributing less than previous.
